**Airport Valet Parking Offers Car Wash and Detailing Service at
Charleston International Airport**

Charleston, S. C. - Republic Parking is now offering car wash and detailing services to customers who use valet parking at Charleston International Airport. Prices *start* at \$30.00. "We have contracted with Pleasant Details of Mount Pleasant for this service because they offer an eco-friendly car wash system. We have found that our customers' lives are often so busy that they don't have the time for dealing with car care when they're home," said Jennifer Carroll, regional operations manager, for Republic Parking.

Valet parking at Charleston International Airport is \$15/day, the same price as the parking garage.
